

Bachelor of Architectural Studies (Hons.)

This is a reminder that portfolio submissions for entry into the BAS (Honours) programme for 2020 close on 30 September 2019. Early offers will be made for selected submissions that were received by this date. There will, however, also be a second opportunity for portfolio submissions up until 31 October 2019 and later offers will be made for selected submissions received by then.

In 2020, three new and exciting elective studios will be offered in the first semester of the BAS (Honours) year. The proposal is that these studios will be aligned with broader fields of research in the school and they will be supported by three architectural theory electives and three landscape/planning theory electives. Students in the BAS (Honours) studios will also be encouraged to interact with students in the MArch (Prof) year to promote peer learning. All portfolios should be delivered to Naomi Gihwala:
